

Cut out the black rectangle.  
Precrease all the red and blue lines.  
Fold the red lines as valleys (toward you) and  
the blue lines as mountains (away from you).  
Fold the thicker lines by 180 degrees, and  
the thin lines only 90 degrees.

If you succeed, you will make a 3D "YES"  
with the image of a "NO".

## Yes/No
